Hon. Rolla Hart is a farmer, statesman and the sincere friend of the farming element. The farmer who votes for him votes for his own interests.

At no stage of the tariff proceedings was there a single Republican vote cast against the Sugar Trust. Recollect this when you hear a Republican blating against the Sugar Trust. The separate bill making sugar free could easily have been made a law if Republican Senators had permitted its consideration.—Georgetown (O.) News-Democrat.

Unless the Republican party can make laws increasing the appetites or creating habits of wastefulness in the men who work for the manufacturers it is difficult to see how they are going to enlarge and enrich the market for the farmers' products. So many people eat so much food. It is flimsy preaching to talk about making them eat enough more than they ordinarily do (by "protecting" the manufacturers) to increase the prices of farm products.

It took the Republican party thirty years to get their tariff laws to a point where they would overcome and paralyze the growth and development of a country of wonderful natural resources. It was then turned over to the Democratic party by the people, and the unreasoning element expected them to bring order and prosperity out of chaos and wreck with a wave of the hand. Under the greatest difficulties the Democratic party has almost undone in eighteen months the class legislation and ruinous laws of thirty years' Republican labor. The credit is beginning to fall where it belongs and will continue to do so.

Sugar is almost one dollar a hundred pounds cheaper than in September, 1893, when the McKinley law was in full blast, and the tendency is for a lower price still. The duty that is paid on sugar now goes into the U. S. Treasury and helps to pay the expenses of the government, while under the McKinley law it all went into the pockets of the sugar trust.

Four Big Successes
Having the needed merit more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for consumption, coughs and cures, each bottle guaranteed—Electric Bitters, the greatest remedy for Liver, Stomach and Kidneys. Buckler's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer who does not stand behind them will be found out by the people.

ECZEMA
From early childhood until I was grown my family spent a fortune trying to cure me of this disease. I visited Hot Springs, and was treated by the best medical men, but was not benefited. When all things had failed I determined to try Dr. King's New Life Pills, which were a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer who does not stand behind them will be found out by the people.

FROM
The price of wool without a tariff is from 22 to 37 cents, according to quality. Under the McKinley law it went down to 14 to 20 cents.

COUNTY JUDGE.

A Review of the Candidates.

RICH CHASE, Sept. 28.

The most important question for the voters of Lawrence Co. to decide is, whom shall we elect County Judge? The candidates are W. H. Woods and R. C. McClure.

The intention of this letter is to give the merits and demerits of the two candidates that he who runs may read and know for whom it is safe to cast his vote.

Mr. Woods is a prominent farmer and stock dealer of this county; one who is well acquainted with the citizens throughout the county, who has had for several years an opportunity and the ability to see the needs of the people to meet those needs. It is claimed by his opponent that he is not a lawyer and for that reason is not competent to fill the important trust; but when we remember that he was magistrate a number of years, that he has sat as Judge of the law in many suits, doing honor to himself and constituents which is a better schooling for the office than his opponent has ever had, when we remember that Mr. McClure never presided as Judge in any trial and has had limited practice as a lawyer, we fail to see that he has any advantage in the way of competency.

Mr. Woods is a man of good common sense, which is one of the best qualifications an official can have, and after we have honored him with the title of County Judge, we feel safe in saying that he will never show signs of bigotry or egotism. He is a deserving candidate in every sense. His age and experience, his observation and intelligence with his good sense and honesty of purpose make him a desirable man to look after the County's welfare for the next three years.

Mr. McClure is a lawyer living in Louisville, young in years and young in the practice of law; but as a candidate he is not so young, having wanted office from boyhood up and his mania for office does not culminate with the County Judgeship, he having told a friend that after a Republican president is elected he expects a good appointment. Vain hope!

To see him when he is not a candidate go along the street with his hat cocked back on one side of his head, with a side glance at your broad-toed shoes and a derisive grin at your patched clothing, and with that I-don't-know-you air, you could hardly believe him to be the same Crooks who now meets you with such a friendly grasp and with the Oh-how-I-do-love-your-vote expression in his countenance. But to return to his competency.

He says he is a lawyer and Woods isn't. That he lives in town and Woods 20 miles away. That he is learned in law, needs the office, and that the people ought to elect him.

We know of no better way of judging the future than by the past.

R. C. McClure has been in office and the record he made while in office is the standard by which he should be measured. He may be learned in law (?) but his rulings while Supt. of Schools show either ignorance or disregard for law. We will give a few of his many unjust rulings and leave it for the voters to say whether he is a safe man to sit in the County Judge's chair. We will give you a few facts and references to prove to you that a knowledge of law without due regard for it, is not a qualification for a Judge. J. No. 2.

COUNTY ORDERS.

Changing Voting Places.

Chapter 41, Art. 2, Section 1444.

The County Court of any county may change the boundaries of any precinct—or change any place of holding elections wherever public convenience or the public good may require it.

Provided, That no such change shall be made after June term next preceding election and that no change shall be valid, without giving due notice at least one month before any election by one publication in the newspaper published in said county having the largest circulation, or by posters put up in four of the most public places in said precinct.

State of Kentucky,
Lawrence Co. Court,
June term, 1894.

Ordered that the present voting place at Graves Shoal, Lawrence Co., be changed from Graves Shoal to Richardson, and notice of this change be properly advertised as required by law.

A Copy Attest, ROBERT DIXON,
Clerk Lawrence Co. Court.

State of Kentucky,
Lawrence Co. Court,
June term, 1894.

Ordered that Knob Branch voting precinct, Lawrence Co., be changed from Knob Branch to town of Blaine and the said change be properly advertised by Co. Clerk, as provided by law.

A Copy Attest, ROBERT DIXON,
Clerk Lawrence Co. Court.

State of Kentucky,
Lawrence Co. Court,
June term, 1894.

Ordered by the County Court that the voting precinct now at Graves Shoal, Lawrence Co., be changed to Richardson and the said change be advertised by Co. Clerk, as provided by law.

A Copy Attest, ROBERT DIXON,
Clerk Lawrence Co. Court.

One would think from the above orders that I had made two orders for the same district by mistake, but such is not the case. I asked the County Judge to have these orders written as they should be entered on the book. R. C. McClure, who was engineering these changes, wrote the orders and handed them to me and they were entered as above and correspond word for word with the original papers written by McClure, which are now in my office subject to the inspection of any one who cares to see them.

ROBT. DIXON,
County Clerk.

Everything imaginable in the way of school supplies at M. F. Conley's.

The United States is the greatest farming country in the world. Two-thirds of its population depend upon farming for a livelihood. Protection for farming interests is a plain impossibility, because we are large exporters of farm products. Our farmers produce so much more than can be consumed in this country that we must depend upon foreigners to buy a large portion of it. For this reason the prices of our farm products are governed by foreign prices, and we therefore virtually sell all our principal products in foreign markets. Under the unjust McKinley law whatever we get there in exchange for our products we bring back and pay a tariff on it before getting it admitted into this country. This tariff is for the benefit of the manufacturer. We sell in a free trade market and buy what we need in a high tariff market. Could anything be more unjust than to tax this two-thirds of the benefit of the one-third—or rather, for the benefit of the few men in control of this one-third? Perhaps the Republican who admitted that "the farmer who votes the Republican ticket is either a fool or does not understand the case?" was about right. What do you think about it?

CATS FORK.

J. M. Elkins and John Teller made a business trip to Louisville Monday.

Jas. Hille and Nancy Huett, of East Fork, and Mrs. Ida Lockwood, of Vessie, passed down Friday.

Mr. Arrington, candidate for Assessor, was here Wednesday shaking hands.

Nut Bros. passed with hogs and calves last week.

Jas. Casey, Ray Jones, Jessie Hall and Albert Elkins went to Long Branch Tuesday night, as dark as it was, to the Literary Society.

Best Teller passed with a drove of one cow Friday.

Wm. Jones from a possum trap came carrying his chickens on a string. Better buy a basket.

V. D. Harman and wife visited relatives on East Fork Saturday.

R. L. Barrett and wife attended the funeral of Judge Ross, of Bolts Fork, Sunday.

Ann Short, of W. Va., visited relatives here, and grandma Shortridge and Mrs. Ruggles were guests of J. M. Elkins Sunday.

Supt. R. S. Billups made his official visit to McDaniel's school Wednesday, Sept. 19, and seemed to be well pleased with the manner in which the school is conducted.

EARLY RISES.

Nine of the seventeen counties in the Eleventh congressional district disregarded Judge Jones' injunction against holding primaries. As Mr. White's friends absented themselves from the polls, Mr. Colson, of course, swept things and will be pushed as his party's nominee. Mr. White's friends claim there has been no nomination. The Republican party in the district is demoralized, and the chances for electing a Democrat are thought to be excellent.

ELECTROPOISE

Cures Disease.

The Electropoise gave me complete relief from excruciating pain in three applications. I also find it good for treating children for their numerous ailments.—[C. T. Soden, with Brideford & Co., Louisville, Ky.]

Mr. G. W. Flint, of Skylight, Ky., says: "I suffered for years with my kidneys, inflammation of the bladder and enlargement of the prostate gland. After a short trial of the Electropoise I am entirely relieved, and feel twenty years younger."

I have derived more benefit from the use of Electropoise than from all other remedies combined. I think it was the greatest invention of the age. It can not be praised too highly.—[Mrs. M. E. Gorman, Sadville, Kentucky, August 20.]

John H. Davis, Esq., of Barboursville, Ky.: "The Electropoise is the best all-around doctor I know of. My wife suffered from the effects of la grippe for several years; also a complication of other ailments. Now she is entirely well. One of my neighbors is well in for lung trouble, and all reports improvements."

As a curative agent the Electropoise can not be equaled! Nearly 1,000 have been put out from this in the last three months.

IVORY SOAP

IT FLOATS

BEST FOR SHIRTS.

THE PROCTER & GAMBLE CO. CINCINNATI.

Joseph M. Webb, infant son of Charles and Addie Webb, was born Nov. 27, 1893, and departed this life Aug. 24, 1894. He was a bright and lovely child, so bright that every one had something to say to him. He was a pet for everybody who knew him. He would sit on his mother's lap and sing "Come away to Jesus." He will be greatly missed by his parents and friends. But that Jesus who said, "suffer little children to come unto me, and forbid them not, for of such is the kingdom of Heaven," has taken little Joe to himself, where he will never suffer again. He now sings with the angels in heaven. May God bless the bereaved parents and may they live so as to meet their babe in Heaven.

From the best information we can get there is no danger of free lumber injuring the business of this part of the world. The reason is that this region does not produce pine and that the popular and oak produced here will have no outside competition. Soft pine is the only lumber that will be imported to any extent and since the pines of Michigan, Wisconsin and Minnesota are about exhausted free pine is just what the people want. The people of this region need not be alarmed, then, as they will still find the market for their surplus in Europe where they have always been able to sell at good prices.—Jackson Hustler.

"I consider Chamberlain's cough remedy a specific for croup. It is very pleasant to take, which is one of the most important requisites where a cough remedy is intended for use among children. I have known of cases of croup where I know the life of a little one was saved by the use of Chamberlain's cough remedy." J. J. LaGrange, druggist, Avoca, Neb. 50 cent bottles for sale by A. M.
